

Who we are

SDLtek specializes in providing secure solutions in Cyber security, Information Security, Software System Integration and Compliance services. We strive to provide solutions that are in compliance with NIST, CMMC and other federal government security policies and standards.

We provide solutions and best practices in Cyber Security to protect our customer's data and other IT assets from cyber threats and system vulnerabilities. Our solutions comply with NIST and CMMC security standards with an approach to include security as an integrated part of system integration. Our goal is to help organizations in their journey to enhance and optimize the organization's security posture.

Our success is a measure of your success.
